Located in the plain, between the side valleys, the capital of Valais is the place to visit. You definitely have to stop here for a while, in a place where life is good.

**Sion** is a small town with a cultural and historical background. It is full of energy and character. It is especially famous for its busy Friday market, its old town with paved narrow streets, like the charming "rue de la Lombardie", its lively pedestrian streets with flowery balconies and the hills where the two medieval castles of Valère and Tourbillon stand proudly at the foot of the terraced vineyard.

The "**Domaine des Iles**", dear to the inhabitants of Sion, offers a verdant haven of peace, very

near the town centre. There, you have the choice between resting in the shade of the big trees, swimming in the clear waters of the small lakes and walking while watching children play.

“Les Iles” is also a wide ground where you can practise a vast number of sports and do activities in all seasons.

## KEYWORDS

Tasty, historical, modern, epicurean, charming
